CHIEF REYNOLDS RESIGNS FROM POLICE FORCE

Brick and Coal Co. Interviews
Council re Mineral and
Petroleum Rights — D.
Broadfoot to Build Elevator.

The regular meeting of the town council was held in the council chamber last Monday evening. Mayor Bell was in the chair and the following councillors were present: Councillors Robertson, McLachlan, Devitt, Oates and Ireland.

As requested by Councillor Devitt at the last regular meeting the professional opinion of the Engineer, Asst. Engineer was laid on the table by Mayor Bell. The record reviewed the positions Mr. Asst. had held as engineer and assistant engineer in the old country and Canada for the last 55 years. His worship explained that Mr. Asst. had been engaged by the council of 1913, and had been continued in office by each succeeding council, so far as he knew his work was of a highly satisfactory nature and he had not heard of any specific complaint made against him. When asked if he had anything further to say in the matter Councillor Devitt replied that he had not.

On motion of Councillors Robertson and Oates the secretary was instructed to forward to Mr. and Mrs. Asst. with the council's compliments the loss they had sustained in the death of their infant daughter.

Dr. Kohler and E. H. Sellhorn, on behalf of the British Coal Company, waited on the council and asked their assistance in unavailing a knotty question in connection with the gas and mineral rights on the northeast quarter of section 6, which is part of the company's lease.

It was explained that in purchasing this property they were supposed to have also secured these rights but the negotiations showed that there had either been some mistake or misrepresentation in the land office, as a result of which these rights were not obtained, and negotiations for the exploration of oil on those lands was being seriously interfered with. To right matters meant an endless amount of red tape and possible legal proceedings and in the meantime the company for exploration might have passed. According to the government land office the gas and mineral rights for this land are reserved for the town when ever it may see fit to develop matters the company would be obliged to lease the rights to them.

The council was unanimously of the opinion that since they were not in a position at present, nor would it likely be for some time to come, to develop these possible resources, they should not place any obstacles in the way of those who were, but should rather encourage it as much as possible, as any development in this direction was in the interests of the town and district. On motion of Councillor Ireland and seconded by the clerk, it was resolved that the council was to get all information from the government regarding the circumstances, and then if possible to grant the request of the petitioners.

A letter was read from the Canada Bond Company asking for an opinion on the town debentures. On motion of Councillors Ireland and McLachlan the opinion was given till the 21st of this month.

A letter was read from A. Symon asking for a refund of \$3.00, the amount of his deposit for water service. It was pointed out by the clerk that there were some annual arrears for water charged up against property owned by Mr. Symon and the rate was that all water arrears were to be charged up against property owners. He wanted to know if should pay this deposit money to the arrears or refund it as requested in the letter. Councillor Ireland thought the refund should be applied on the arrears. To do otherwise would be forming a bad precedent. He said it was to cover some cases that a deposit was required and the responsibility put up to the property owners. As there was some uncertainty as to what the law was in question was on the mayor suggested that a committee be appointed to investigate the matter and they decided to refund the money, all.

Provincial Election, 1918

REDCLIFF

OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

REDCLIFF, ALBERTA, FRIDAY, JULY 16, 1915.

NUMBER 20

Women to Organize Red Cross Society

Owing to the inclement weather the meeting called for last Tuesday afternoon for the purpose of discussing the advisability of forming a Red Cross society here was postponed. The rains had made the roads impassable so that it was impossible for the ladies to get here from Medicine Hat. Arrangements have since been made, however, to have this meeting in the Young Men's Club room, on Second street, next Tuesday afternoon at 8 o'clock. Mrs. McDonald, of Medicine Hat, will be present to advise the meeting and lend every assistance possible in the formation of the society.

At this time when so much can be done by our women to help the formation of the boys at the front the formation of such a society in our town will place them in a better position to work in conjunction with similar societies at other points and make their work more effective.

There is no doubt the hall will be well filled for this meeting next Tuesday afternoon.

Narrow Escape From Death by Gas in Well

What almost resulted in a fatal accident occurred at the farm of E. Hensby, a few miles north of here, last Wednesday. The Hensbys were digging a well about 100 feet. On Wednesday morning a young brother found it necessary to go down into the well, and being alone around in his own house, he was told by his brother, when he was about 95 feet he was overcome by gas and though the hole was only two feet wide his body was forced up and he doubled over with his head downward and his feet up. Fortunately the rope caught on a beam and the brother was able to bring him to the surface again. After working with him for some time he was resuscitated but it was found that his ankle was broken. He was once taken to the Medicine Hat hospital where he is still residing. When last heard from he was progressing favorably.

No Vote for Soldiers on Liquor Question

"That the four thousand or more soldiers now in camp at the Sorensen reserve near Calgary, will lose their votes on the Liquor question were practically made certain when Premier Simons, replying to a delegation, which brought a petition signed by every soldier in the camp, asking that the 'voting of the Act be' amended, said he did not think the government had any power in the matter.

Blind Orator Speaks For Liquor Interests

James B. Osborne, the noted blind orator, of Oakland, California, addressed a meeting in the Empress theatre last Monday evening. Mr. Osborne made a brilliant lecture in which he dealt with the prohibition. He spoke of the present day economic conditions and laid them at the door of the battle for revenue and profit and then made a plea for the prohibition, which was well up to the prohibition fight and the forces behind it. He said prohibition would be a boon to the nation. "If we don't have a wet jug in them we will have them."

He mentioned the churches and the liquor interests, and said that both were after revenue. The reason the church was so interested in the revenue was because they looked upon it as a condition for survival between the church and the liquor interests.

There were about 100 present at the lecture.

GREAT BRITAIN WILL NOT AGREE TO THIS

Information received from official quarters in London is to the effect that the proposal of Germany that Great Britain should be allowed to use German ocean liners in service under the American flag will meet with Great Britain's disapproval. The allies, it is said by a prominent official, will not consent to any arrangement between Germany and the United States by which the liners would resume their sailings.

Installation of I. O. O. F. Officers

Redcliff Lodge No. 98, I. O. O. F., was inaugurated Wednesday evening by E. J. Cope, D. D. G. M., accompanied by a number of brothers from Medicine Hat Lodge, and the following officers were installed for the current year: J. P. G. — D. D. G. M., Secretary — H. A. Ireland, Treasurer — J. R. McKenna, Chaplain — L. H. Hapton, Warden — C. G. Burdette, Con. — I. Clare, V. G. — R. P. Argue, R. S. N. G. — L. H. Hapton, R. S. G. — O. M. Shipley, R. S. S. — J. C. Reid.

Owing to the absence of some of the newly appointed officers, they could not be installed, and the D. D. G. M. designated H. A. Ireland to install them when they are present. Redcliff Lodge is proud of the fact that 10 members of the local lodge will leave them to go to the front for fighting and country and more of them are likely to go if necessary. The attention of all Old Fellows in town is called to the fact that their attendance at the meetings of the lodge is very necessary in order that the lodge may be able to conduct operations while so many of the members are out of town.

Married Men Must Have Wife's Consent In Their Places

In order to facilitate matters the recruiting officer at Medicine Hat has announced that he will not accept any man as a recruit unless he has the consent of his wife. The officer said that he had received a number of applications from men who were willing to join the army but who had not the consent of their wives. He said that he was required by the recruiting officer at the time application is made. For every instance of any man who is intended enlisting blank forms for this purpose have been sent to the Recruiting office and may be had here at any time.

Aikins to Lead Manitoba Conservatives

Sir James Aikins succeeded to the leadership of the Conservative convention and accepted the leadership of the party in Manitoba. He did this, he said, because the call had come to him and his responsibility was upon the convention. He had hoped to remove himself of some of his responsibilities of taking on new responsibilities, but he acquiesced in the desire that he become the head of the party. He would take on the duties of the "Sir James" acceptance of the leadership and very hearty call to the leadership was exceedingly popular with the delegates, who cheered him with great vigor.

The convention also during the afternoon decided itself to the repeal of the Caldwell amendments and expressed its entire confidence in the government of Sir Robert Borden, and adjourned until this evening for the election of officers, consideration of money matters and other unfinished business.

Germany Admits She Sank Nebraska

From Germany an official message was received yesterday from Berlin by Ambassador Gerard, announcing that the American steamer Nebraska had been torpedoed by a submarine and expressed regret and readiness to make reparation, and asked the United States that the allies flag be taken down for the American flag to be considered an unfortunate accident.

Secretary Lansing made public the German message, which disposes of the question whether the Nebraska was sunk by a torpedo or by a mine. The German message states the incident. It was said, except as to the payment of damages.

Ideal Weather for Young Men's Picnic

The members of the Young Men's Club are holding a picnic down by the river bank today. The weather is ideal for the occasion and there is a large crowd in attendance. The picnic is taking the shape of an old time basket picnic and a good program of all sorts of sports will be arranged for the occasion.

St. Ambrose W. A. To Hold Carnival

The W. A. of St. Ambrose church have completed arrangements for holding a carnival on the church grounds on Thursday evening, July 22nd. The program arranged for the evening's entertainment will be something new for this town and will give a most enjoyable evening in store for all who may attend.

The ticket fund will be in attendance and during the evening ice cream and cake will be served. Little Miss Adelaide Mason will dance the buttery dance and the Sallies' hornpipe.

After the musical program there will be a musical dance on a platform specially prepared. It is expected that the officers and men of the St. Ambrose Battalion now at the front will attend in a body and there is a possibility that a special train will come from their city.

The admission fee is placed at 50 cents for the whole evening or 10 cents for each dance, ladies free.

The W. A. has furnished a number of pleasant dances for the public during the spring and summer months and it is hoped to be better than the one before the young people may expect something out of the ordinary this Thursday, July 22nd.

Put Married Men In Their Places

A Mayor Chester Walters, of Hamilton, Ont., announced this week that the city will discharge all its married laborers and fill their places with single men in order to make the single men realize that their country needs them. The city had about 900 married men on its payroll, and 300 unmarried men to be hired will have to go. "The mayor states that the recruiting campaign from now on will leave little excuse for any single man to apply for charity this winter."

Prohibition Vote Next Wednesday

Next Wednesday will be a very important day in the history of the province of Alberta. That is the day the vote is to be taken on the liquor Act and settle for some time to come the issue of prohibition. The lists are all now prepared and all other necessary arrangements for the holding of the vote have been attended to.

Mr. Redcliff A. McClellan has been appointed returning officer, and the vote will be recorded in the school. The polls open at 9 o'clock in the morning and remains open till 5 o'clock in the evening.

If your name is on the list be sure to turn out and vote.

To Attack Krupps By Aeroplane

Demand by English aeronautical experts that the government send a great fleet of aeroplanes to attack the Krupp gun works at Essen had a partial answer yesterday.

Dispatches from Paris reported that during the night several French aeroplanes made a reconnaissance over Essen.

The reconnaissance trip are believed to have been preliminary to an attempt to bombard the Krupp works from the air. An attempt was made to drop bombs and supply the Germans at Essen by ten aeroplanes from the back of the lines of the allies in the air.

The ten aeroplanes dropped a number of bombs and returned safely to their base. The extent of the damage is not known.

VALUABLE GOLD NUGGET 315 FOUND IN R. C.

Atlin dispatch of British Columbia has the distinction now of featuring the largest pure gold nugget ever found. The news came along the government telegraph line to Vancouver — a prospector, not yet named — found a forty-thousand-pound lump of gold. This is calculated from rough weight and represents more than 1,000 ounces of weight. This find was lying loose on the hanging wall of a quartz vein.

To date Australia has held the honor with the "Welcome Stranger" and "Welcome" nuggets, but must now set back for the "Gully" in which a 35 lb. one is believed to exist. The British Columbia one is a new sport.

REDCLIFF BOY AMONG FALLEN AT THE FRONT

Wm. Neale Killed in Action—
John Bradley of Redcliff
Wounded — Now Convalescent — Washford and Stimson Well

Walter Armstrong received a letter today from his mother who is now in France stating that "Wm. Neale was killed in action at Festubert, on June 20th. Neale is a Redcliff boy and left with a first contingent. For two years he worked here with Armstrong & Lynch in the plumbing business. He was a single man about 22 years of age and during the time he resided here was one of the most popular young men in town. He was a young man of good morals and was the kind of whom it could be said "he had a heart like an ox."

He did not like to leave his father and mother. When the date in mind, next Thursday, July 22nd.

In the same letter mention is made of John Bradley, another employee of the same firm. Bradley was seriously wounded at Ypres. He was shot under the eye and the bullet went through his eye and he is now in the West Kent hospital at Maidstone but has been recently moved to a convalescent home. The location of this hospital is not known.

In his letter Lynch states that he saw Bill Stimson and Harry Washford who were in the front line. He saw the terrible slaughter that is going on at the front. He saw the bodies of 95 men who left Maple Creek at the start of the war only six survivors.

Drunks a Rarity In Saskatchewan

According to F. P. Hole, manager of the Provincial Liquor Stores, the dispensaries are selling only 5 per cent. of the liquor which was sold in the province prior to July 1, when the beer was abolished. The record to date for July was on Saturday last when \$2,000 worth of liquor was sold in the province. On the basis of these figures it can be seen that the consumption of liquor has greatly decreased, for there have been occasions when \$5,000 worth of liquor has been sold in the province.

The reduction in the consumption of liquor is also evidenced in the falling off in the number of cases of drunkenness appearing in the police court. The number is very noticeable, a "drunk" being something of the nature of a rare avis in the court now — Moore J. says.

Ten Submarines Cross the Atlantic

Two flotillas of American designed British submarines sailed from Quebec for England recently, according to information which has reached New York. Each flotilla consisted of ten submarines, one of which was acting as escort, accompanied the flotillas on the voyage across the Atlantic.

The ten submarines were each manned by four officers and 18 blue-jackets, who were sent from England to take over the craft and pilot them across the ocean. Never before in history have so many submarines undertaken a voyage as great.

The boats were all designed in the United States, and most of the parts were manufactured in that country, and then shipped to the naval yard between Montreal and Quebec, where a large force of skilled mechanics were employed to put the vessels together.

Canada's Premier Visits Imperial House

The Westminster Gazette says that Canada will rightly be proud of her prime minister who has been called into conference with the British cabinet. Mr. Borden is a great man of this close and confidential co-operation. It is well that Premier Borden's visit should be used to advertise to the British people the essential value of the British empire at this testing time.

THE REDCLIFF REVIEW

Subscription - \$1.50 per year

Advertising Rates Furnished on Application.

FRIDAY, JULY 16, 1915.

DON'T BLAME US

Ever since the Review started under its present management it has been untiring in its efforts to try to encourage the habit of dealing at home and patronizing our local merchants as much as possible. Our firm belief in the important part which this plays in the development of a town has prompted us on different occasions to refuse advertising from departmental and other outside firms who made us tempting offers to advertise their goods in competition to our local merchants. As we are in the newspaper business and as the columns represent the same to us as the goods on a merchant's shelf, we would be perfectly justified at any time in selling our space to anyone who wished to buy it but we have always felt that this monetary loss to us was but our own towns helping to build up their own town. So long as our own merchants patronized the columns we were perfectly willing to continue this practice. Now, however, things are different. In order to make a paper pay its way it must have advertisements. There is no money in printing a paper for the subscription price. That barely pays for the plain paper without any printing on it. Since we are not getting the support of our local merchants and since we are desirous of keeping the paper going we have found it necessary to accept these outside advertisements, as a result of which one appears in this issue from one of the largest dry goods and grocery stores in Medicine Hat.

A BAD PRECEDENT

At the beginning of this year the newly elected councillors who were to place Redcliff on a sound economic basis, expressed some surprise that certain amounts for water rates were to be written off the books because those who had contracted the debt had left town without paying. They also took advantage of the opportunity to blame the town officials for allowing this to happen. In order to guard against the recurrence of this in the future the water committee introduced and had passed a bylaw which made the owners responsible for these water rates.

At the council meeting last Monday evening a similar matter was up for discussion and strange to say the councillors who were loudest in their criticisms of the apparent laxity of the town officials at the beginning of the year were also loudest in advocating the refund of the deposit money to a ratepayer against whose property water arrears were charged. The motion to refund the deposit money was carried. Thus forms a very bad precedent and means that in future the bylaws meant to govern such cases are not worth the paper they are written on. What property owner now is going to consider himself responsible for water rates when this one is let off. What's sauce for the goose is sauce for the gander. In fact it was only a few minutes after the above motion was passed that Councillor Gaisa wanted to know if he should have to pay the water arrears charged against one of his houses. If he wants to get out of paying it we would advise him to get "intimately associated" with some of the coun-

cillors in some work, then he might get his case championed through for him.

CURE FOR THE BLUES

Those who are troubled with the blues these days should read George J. Bury's recent interview on the western crop outlook. It will do them good. If, after its perusal, they do not feel better, then they had better consult a doctor; for their depression of spirits must be due to physical causes.

Mr. Bury looks for a crop of 240,000,000 bushels of wheat. That should mean \$240,000,000 at least. If the yield is as large as he thinks it will be, \$240,000,000 is a conservative estimate of its money value to the country. And does anyone think that the circulating of this amount of money in the three prairie provinces will not loosen up things?

A NEW ARGUMENT

In his addresses to the electorate of this province on the prohibition question J. B. Osborne, the blind orator, goes out of his way to make insulting allusions to our Christian churches, our ministers and those connected with them in carrying on their work.

There are few things which will provoke the average man to anger or make him fight more quickly than to hear another man speak lightly of his church—the church of his parents and grand parents and in taking this stand we feel sure that Mr. Osborne will do more harm than good to the cause which he is advocating.

That our churches are the greatest influences for good in any community none but the meanest and most depraved will deny.

When Mr. Osborne insinuates that the prohibition campaign is a fight between the church and the saloon and that either must go if the other is to thrive and prosper, he places a new light on the situation and one which, if this deduction were correct, would not take the average man long in deciding how he should vote next Wednesday.

CULTIVATION OF FLAX

It is only a question of intelligent co-operation between the government, the farmers and flax producers to secure a sufficient quantity of the flax; the raw material of the linen trade, in order to make possible the building up of a large and prosperous flax industry in the Dominion of Canada. It is in fact a question of the production of the raw material and the investment of sufficient capital to manufacture the same into fibres, yarns and linens. This spoke Mr. Geo. H. Campbell, president of the Canadian Flax Mills, at a conference recently held of flax dealers, growers and mill owners at London, Ont. Mr. Campbell enlarged upon the importance of the industry, described the cultivation of flax from its sowing to maturity. An important point that he alluded to was that the climate and soil in Canada are particularly adapted to flax growing. A report of the proceedings at the conference is embodied in an 11-page pamphlet that can be had free by addressing the publications branch, Department of Agriculture, Ottawa; and that in addition contains a complete account of a visit to the Demonstration Plant of the Feuillette Retting system at Goderville, France, given in an address by Mr. Albert Durant, secretary of the French Flax Spinners' association. Mr. Durant goes minutely into particulars of the system detailing the machinery required, the cost involved, and all the operations necessary until the manufactured product is ready to be placed upon the market. Land is dearer and taxes higher

in France than in Canada, and all these are elements in the cost. On the other hand labor is cheaper.

There is but one deduction to be drawn from the pamphlet and that is the increased production of flax in Canada would prove remunerative. It might be added that the prospects are greatly improved by the existing situation in Europe, Northern France and Belgium having hitherto been the almost monopolistic centres of growth and manufacture.

This adds but another to the list of possible industries which might be developed in Redcliff, where we have the suitable soil for growing flax and the cheap power for turning out the finished article.

When a provincial or Dominion election is on the candidates in the field lose no time in getting around to the country newspaper offices to solicit their support. It is quite different, however, when it comes to a case of handing out government printing. In that case the country paper is passed up like a pay train passing a tramp and the big city fellows are given the whole cheese. Who ever is responsible for this should remember that the little fellow has to live and is intitled to his share.

Thomas Edison is to head a committee of inventors whose services will be placed at the disposal of the United States war and navy department. With the scientists and inventors of all the nations at work on the job it should not take very long to make war as horrible a thing that men would refuse to fight.

Canadian Coasts

To Be Guarded

The first tangible evidence of the precautions which the government is taking against the presence of German submarines on the Atlantic coast is in the notification of mariners by the Marine Department to report suspicious looking craft. The notice reads: "The master of all vessels navigating Canadian waters were warned as to the necessity of keeping a sharp lookout and reporting any suspicious craft they may sight. Small fishing and coasting vessels are particularly urged at once to report any such craft to the nearest customs office for transmission by telegraph on the east coast to the captain in charge of the Halifax dockyard and on the west coast to the superintendent, Esquimaux dock yard, British Columbia."

Harry K. Thaw, the slayer of Stanford White, was declared sane by a jury in the supreme court after about an hour's deliberation.

How to Treat

Diseases in Potatoes

There could hardly be a more timely or more practicable, valuable publication at this moment than Circular No. 9 of the Division of Entomology of the Experimental Farm, Ottawa, dealing with "The Control of Potato Diseases," by R. T. Osipow, the Dominion biologist. With the contents of this circular every grower of the "tubers" would profit by acquainting himself. It tells of the different diseases to which the potato is subject and of the preventives and remedies that can be successfully applied. The circular, which can be had by application to the publications branch, Department of agriculture, Ottawa, should have a wide circulation.

Kaiser Says War to

End in October

The German emperor, in a speech to a deputational bankers, who had invited an interview in order to point out to the emperor the financial difficulties of the situation and grave risk of attending persistence of campaign through another winter stated that the war would end in October. The bankers are alleged to have deduced that, even if the war was brought to an end immediately and indemnity obtained, Germany's position would be difficult, but that if the war was prolonged the German empire would become utterly bankrupt. It was in reply to these representations that the emperor is understood to have declared the war would end in October.

Mayflower Talcum Powder

The distinctive odor of Mayflower Talcum is entirely new, and of such charm and delicacy as to immediately appeal to every woman of refinement. Antiseptic—exquisitely fine in texture, it is pre-eminent for use on baby.

All Nyal preparations are in a class by themselves. Nyal's Face Cream and toilet requisites are almost indispensable for the complexion. Ask at the Nyal Quality Store for free copy of our booklet, "The Complexion," which includes directions as to proper methods of Massage.

WHO AM I?

1. I was born of Hysteria—my heart is cruel—my eyes are blind to justice. I glory in jails. Intimidation is my best friend.
2. I dethrone reason, but have no brains. I breed hatred, strife and bitterness where peace and friendship should reign.
3. You find my brethren in many small towns, but never in large cities, and where wears there is always trouble.
4. I make a great noise but never tell the truth. My tongue is dipped in gall. I take much but give nothing in return but deception, fraud and failure.
5. When I speak, Fanaticism is glad, Oppression shouts for joy and Freedom weeps.
6. I feed upon false statistics, garnished by imagination and seasoned with hypocrisy.
7. I cause bankruptcy and devour the substance of others wherever I go.
8. I have turned ministers of the gospel from true laborers into the crooked paths of politics, greatly impairing their influence with the masses.
9. I weaken the weak and destroy the strong. I promote temperance with a policeman's club.
10. I breed snakes, liars, hypocrites, and petty criminals. The bootlegger is my darling offspring. This is why I prefer him to the legitimate hotel keeper.
11. I rob the province of revenue. I increase the taxes. I deprive the estate owners of rents. I am a friend of the mail order business.
12. I AM THE PROPOSED LIQUOR ACT.

General News Notes

From Various Points

There is good reason for believing that the Manitoba general provincial election will be held on the first week in August and an announcement to that effect getting a definite date is expected at any moment.

A Berlin dispatch received by Reuters News Agency by way of Amsterdam gives the substance of what is described as a thirty-voted letter to Romania contained in an article in the semi-official *Frankfurter Zeitung* which, under the heading "Romania's Hour of Fate," charges that country with holding up war material en route from Germany to Turkey.

The admiralty announces that the German cruiser *Koenigsberg*, which in the fall of last year took refuge from the British fleet in the Ruffi river in German East Africa, has been very wrecked by British aerial operations. The *Koenigsberg* was a vessel of 3,348 tons and had a speed of about 24 knots. She was a protected cruiser.

Since the war broke out there has been a great rush for naturalized citizens. The sixth of August there have been some 500, approximately, who have made application to become citizens of these have been granted. Recently quite a list have been passed on by the judge and these applications are now being completed in the naturalized to get their names on the voters' list for the Liquor Act vote on July 21st.

Of the four counties voting in the county option elections in Manitoba last Monday, Freuchen, with 14 seats, and three whole county houses, and Anoka, with two saloons, were dry while the rest were in good luck and led in Sherburne.

That British Columbia will provide for 100 additional machine guns for her battalions leaving for the front seems assured from the subscriptions that are coming in. Upwards of 60 have now been actually secured, and many districts are yet to be heard from.

Two farmers in Vancouver have been arrested and are being held on charge of high treason. They are supposed to have helped two Germans to cross the border into the United States and thus to reach their native country. They are expected to have helped many of their German friends in the same way. This is the first case of this kind yet reported in western Canada and is punishable with death.

From a diplomatic source it is learned that a coup d'etat in Turkey is momentarily expected. Italian consuls who have just arrived from Asia-Minor report that Turkish leaders are convinced that a separate peace is Turkey's only hope of salvation. The downfall of the dominant influence in Constantinople, which is inevitable, is believed to be imminent.

The German army aircraft department has just completed general appearance of a new type. The new machines will carry 20 men each. They are of triplane type and mount four machine guns. They have eight motors and four propellers.

The death sentence has been passed on two men charged with attempting to assassinate King Ferdinand of Bulgaria. This is the first time received in London that any attempt had been made upon the life of the ruler of Bulgaria.

It was officially announced that the subscription to the Great Britain war loan had a total of almost \$600,000,000 (\$3,000,000,000).

Dispatches from Asia Minor received by the Exchange Telegraph company state that German officers with the Turkish army in Syria have returned to Constantinople because of dissension among the Turkish officers. The Syrian railroads are said to have suspended operations because of the shortage of coal.

Reports received from the Belgian Dutch frontier are to the effect that many persons are being killed by a high voltage electric wire fence which has been constructed by the Germans along the entire border. Every morning, it is asserted, there are found from a dozen to a hundred mangled bodies of Belgian peasants, including women and children, who, during the night, had attempted to cross the fence and were electrocuted.

More than 10,000 Chinese are reported to have been driven by the rice floods which are sweeping the provinces of Kwan Tung and Kwang

SI. At least 30,000 were are homeless, and are on the verge of starvation.

All German attacks in Poland during the last three days have been defeated, the enemy suffering severe losses, according to official reports. The German battle of South Lublin the Russians captured 297 officers and 22,644 men.

Barney Bell, well known to Port Arthur as an employment agent, and two Germans named Fred Valten and Hans Handau, are under arrest. It is understood the charge is, treason based on efforts to transport aliens to the United States by motor boat at \$5.00 each.

CHURCH NOTICES.

THE PRESBYTERIAN CHURCH.
Two sermons on the all-shocking theme of prohibition will be preached on Sunday, July 18th, in the forenoon prohibition as a moral issue will be discussed, the times at 7:30 p. m. will be "Prohibition and Socialism." The religious and social bearings of the same will be considered. Services also at 8:30 p. m. Sabbath school meets in the church at 2:15 and on Fifth street northwest at 2.

Wednesday evening prayer service at 8 o'clock. Probably some return to the service will be announced. The Women's Missionary Society meets on Thursday at 3 and the choir at 4.

BAPTIST CHURCH.
Reid's Hall.
Sunday, July 18th: Sunday school 10:30. Morning service 11 a. m. Subject, "The Historicity of Jesus." Evening service at 7:30: Immersion subject, "A Reply to Recent Statements of the Liquor People." Tuesday at 8 p. m., service for bible study and praise.

Friday at 8 p. m., choir practice. All are invited to these services.

CHURCH OF ENGLAND.
Sunday next, no morning services. Sunday school at 2:30. Evensong at 7:30. Friday: Evensong with litany and intercession for the war at 7:30. Choir practice 8 p. m.

What is wrong? Why don't more come to the Friday evening prayers for our soldiers who are so manfully facing the perils of death to save us and the Empire? If people don't believe in God, of course it is unreasonable to expect them to come and pray. If, moreover, they don't think that there is anything in the present situation which is disturbing to mind and heart, then again there is no great reason for special prayer. Some are unable to come, but it is difficult to think that the few who do gather together week by week represent all those who are believers, who recognize the greatness of the present awful crisis, and who could come if they were prepared to make a little effort. Surely the thought of the perils our dear ones are facing, the ungodly cries of the wounded and dying, suffering all for us, must make us think and stir us up to more earnest prayer for God for those who alone can give peace and fortitude, and who alone can guide and direct them and us through all. Let all who love the Empire and their God unite in prayer, especially at the short services on Friday evenings, and the Sunday evening services when special prayers are offered.

THE UNION BIBLE CLASS.
The class meets in the Presbyterian church, which is much more comfortable than it was enlarged, on Sunday at 3:30 p. m. Subject next Sabbath, "Solomon Dedicates the Temple." 1 Kings 8:22-30.

Twenty Hydroplanes Ordered for Britain

The Spanish air pilot at present in Toronto expects to leave for home in about a week after the completion of the tests of the six biplanes which with six seaplanes of a modified type are being built by the Curtiss works. Two big flying boats of the America type are also being constructed for Spain at the Curtiss works at Buffalo. Spain has quite a variety of flying machines, including examples of Spanish, French, German, Austrian, British and new Canadian manufacture. The Canadian machines, which will have the distinctive mark of Curtiss, will find a use in the little war Spain has on her hands in Africa. She has three aeroplanes there at Madrid, Tetuan and Arzila. A staff of workmen ascribable to the "Canada" Zeppelin destroyer at the Curtiss works. It is understood Mr. Curtiss is building 20 more Americans for Britain.

How to Deal With

The House Fly-Danger

A disease dealing with the house fly-dangers is being out by the department of agriculture, Ottawa. It says that house flies are now recognized as most serious carriers of the germs of contagious diseases, such as typhoid fever, tuberculosis, infantile diarrhea, etc. They infect themselves in filth and decaying substances, and by carrying the germs on their legs and bodies they pollute food, especially milk with the germs of the above and other diseases and of decay. A single fly may carry as many as 500 million germs upon and inside its body.

The circular suggests that windows and doors should be properly screened, especially those of the dining room and kitchen. Milk and other food should be screened in the summer by covering it with muslin; fruit should be covered also.

Where they are used, especially in public places as hotels, etc., spittoons should be kept clean, as there is a grave danger of flies carrying the germs of consumption from unclean spittoons.

Flies should not be allowed to have access to the sick room, especially in the case of infectious diseases.

The faces of ladies should be carefully screened with muslin. To kill flies in houses mix two tablespoonfuls (one ounce) of 40 per cent Formalin, (a solution which may be obtained from any drug store) with one pint (sixteen ounces) of equal parts of milk and water. This mixture should be exposed in shallow plates and a piece of bread placed in the middle of each plate will enable the flies to alight and feed. All dead flies should be kept in a jar, and burnt. The burning of pyrethrum in a room, preferably at night, is sometimes effective; the flies are only swept up and burnt, as many are only stupefied by this substance.

Canadian Casualties
Pass 10,000 Mark
The Canadian casualty list now totals 10,192, of whom 1,778 have been killed and 6,519 wounded. The missing number 1,857. Over-eight casualties include six killed, thirteen wounded and three missing. Three previously reported as missing have returned to their regiments.

REDCLIFF DRUGGIST

PLEASES CUSTOMERS
 Cecil T. Hall reports customers greatly pleased with the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adolene. This simple remedy drains the old foul matter from the bowels so THOROUGHLY that ONE SPOONFUL removes almost ANY CASE of constipation, sour or gassy stomach. It is so powerful that it is used successfully in appendicitis, colic, etc., never gripes and the INSTANT action is surprising.

Capture German

Provision Boats

On behalf of the crown, Attorney-General Sir Edward Carson asked the prize court to condemn the Norwegian steamers Alfred Nobel, Kim and Jornerne, Hjemso, and Swedish steamer Frøilund which have been detained for some time by the British authorities. The attorney-general asserted these vessels had been carrying absolute and conditional contraband from America intended for German consumption.

In opening the case, Sir Edward said 38 other vessels with similar cargoes had been captured. Copenhagen, he declared, had virtually been turned into a depot for feeding German troops. The cargoes in question consisted for the most part of farm produce, meat from the great American packing houses and lard which is used exclusively in Germany in place of butter. There were many cases of products used in the manufacture of German sausages. Altogether no less than 22,274,500 pounds of meat and meat products was included in the cargoes.

On the Kim and Frøilund were quantities of rubber, listed as gum.

B. C. City People

Going After Farming

It is evident from reports on trade conditions in British Columbia which have just been received by officers of the Canadian Northern Railway that the war in Europe was not the entire cause of the business depression, from the effects of which the people in the coast province are now recovering. Representative business men from Vancouver and Victoria almost unanimously advance the opinion, that speculation of the boom period in real estate account for the greater portion of their troubles. They add that the European continent and the effect of complicating conditions of trade, but contend that the slowing down of provincial commerce may justly be attributed to old economies British Columbians were forced to resort to in order to meet the payments for the real estate they had purchased long before, in the hope of obtaining a prompt and excessive profit. But it also seems from the reports, that the lack of discipline have resulted in the

TAILORED SUITS

TO MEASURE

BY SPECIALIZED TEAM WORK
SUITS ARE MADE IN
FOUR DAYS

In One Year Semi-Ready Shirts

Tailored Half-a-Million Worth of Clothes at Special Order

"The growth of the Special Order business in Semi-ready tailoring is evidenced by the fact that within five years the growth in this particular department was over 600 per cent—a wonderful increase. "Semi-ready Special Orders are made to measure in four full working days at the shops in Montreal. Not a moment is lost after the delivery of the order and measurement at their office on Guy street. "Inside of an hour the web of cloth selected is on the cutter's board. The cost goes to the seamstresses, the vest to the vest makers and the trousers to another floor, and on the afternoon of the fourth day all three garments reach the inspection room within an hour of each other. "Team work, efficiency and system in handling make the schedule as certain as the time of a sunrise train. "Suits are tailored to measure for \$15 and up. The customer is offered a selection of 300 patterns of coats, suits, serge, tweeds, homespun, vicunas and other special cloths—all imported direct from England for the departments. Gibson & Tupper have the full Semi-ready line.

formation of a new perspective to towns business generally, and the revival which now appears to be imminent will find a people without financial resources. A large increase in production is looked for in the next few years.

It is confidently said in political circles that the Manitoba general election will be held on August 9th.

denry appears to be for city people to exchange town properties for farm lands, and many appear to be anxious to leave the town and engage in agricultural work. A large increase in production is looked for in the next few years.

ITEMS OF LOCAL INTEREST

Get cyclone pictures at Mundell's Broadway.

The general prohibition committee for the Redcliff Biding will meet this evening in the Presbyterian church at 8 o'clock.

There will be a great meeting in the Empress Theatre on Tuesday evening at 8 o'clock. Several speakers from outside are expected.

Mrs. D. MacCallister and family left yesterday for Calgary where Mr. MacCallister has secured a position with the Western Canada Milling Company.

A McColeman has been appointed deputy returning officer for this polling-sub-division, for the vote on the Liquor Act on July 21st.

Donald Dunnet, a soldier of the Seaforth Highlanders and a nephew of Mr. George Dunnet of this town, was slain at the battle front on June 14th. Our sympathy is with the friends who mourn the loss of so noble a life.

The Baptist church and Sunday school will hold their annual bazaar picnic on Thursday next, July 22nd, at 2 p. m. at Arlington, west of Mr. Hollinger's residence, weather permitting.

J. W. Moran, of this town, was among those who enlisted with the 6th this week. Mr. Moran was through the Spanish-American war and was with the American navy for four years.

Major Bott is in receipt of a letter from P. Jeffries, one of the reservists who left here at the start of the war, and who is now in France. Jeffries is the 7th division of the 2nd Royal Wiltshire regiment. The letter was written on June 25th and at that time he was enjoying the best of health.

Mr. Cable, who has one of the finest gardens in town, has great faith in what the soil and climate of this district will produce in the vegetable line. On Wednesday he brought in to this office for our inspection a fine big healthy cauliflower which he just brought from his garden. It was grown outside and weighed three pounds. He has a number ready for use and has also been using peas, carrots and beets for some time. This surely has been a great season for garden stuffs and has demonstrated what can be accomplished in this line with a little care and attention.

FOR "SALE" Shack, suitable for
granary. Shilpie Investment Co.

The infant daughter of Mr. and
Mrs. J. E. Askwith, sister of whose
birth appeared in our last issue, died
suddenly last Monday morning.

The Redcliff Club, which has had
temporary quarters in the Wheeler
block since the cyclone, is moving back
to its old quarters this week.

Quite a number of Orangemen from
here attended the celebration in the
Hat on the 12th. Mayor Bott also
delivered a fine address during the
afternoon.

The people from here who went
down to Medicine Hat last Saturday
evening to see Charles Chapman at
the Mammoth theatre say the show
was a regular side-splitter.

Mrs. A. Kennedy, of this town, is
at present in the Medicine Hat hos-
pital undergoing treatment for inter-
nal troubles. It is not known yet
whether it will be necessary for her
to undergo an operation.

The derick at the Liberty oil well
down by the river bank, which was
blown over during the cyclone, has
been put back and is now in operation
again. They are now down 618 feet.

Every lady in town should attend
the Red Cross bazaar to be held in
the Young Men's Club rooms next
Tuesday afternoon.

Theodore Roosevelt, ex-president
of the United States, passed through
here last Wednesday evening on his
way to London where he will spend a
few days on his way to the Panama
exposition.

Maj. Lightfoot, of the 10th bat-
talion, of which some of the Redcliff
boys were a part, is back in Canada.
It says that Leungman and other
battalions have shown that the Canadians
lack proper equipment.

Mr. Anderson, of Moose Jaw, ar-
rived here this week to take a posi-
tion on the Imperial Bank staff dur-
ing the absence of Mr. Howard, who
is now on his holidays. Mr. Rout-
ledge is acting manager.

With the slogan "win the war from
the air" English aeronautical men
announced a movement for the creation
of a ministry of aviation and the
building of a fleet of 10,000 aeroplanes
to deliver German ammunition works
and supply routes with bombs.

Mrs. D. R. Stone and daughter
Margaret, of Rapid City, Man., who
are on their way to the Pacific coast,
stopped off for a few days here.
They were the guests of Mrs. Ed. L.
Stone.

Johnston, of Alderson, who has
been appointed returning officer for
Redcliff constituency, was in town
this week on his rounds distributing
ballot boxes and attending to other
matters in connection with his office.
After completing this preliminary
work he will make Redcliff his head-
quarters. He has opened up an of-
fice here in the Wheeler block.

The committee appointed at the
last meeting held to discuss the mar-
ket question, has been making good
progress and have called a general
meeting of all interested for next
Thursday evening in O. M. Shipley's
office, when final arrangements will
be made. It is hoped that every busi-
ness man in town will make it a
point to attend this meeting.

E. L. Aultman entertained a num-
ber of friends to a pleasant evening
at the home of Mr. and Mrs. Sherwin
last Saturday evening. After a round
of progressive five hundred Mr. Ault-
man, assisted by D. R. Reem, passed
around a most toothsome game with
over the lunch which would have tempt-
ed the most fastidious appetite and
made a domestic science graduate
green with envy. A most enjoyable
evening was brought to a close about
midnight, after a pleasant musical
hour.

Chief Reynolds received a letter
from Billy when this week in which
he states that they are now in France
undergoing some strenuous drilling
in preparation for going to the front
where they expect to do shortly.
Billy had just received word that his
brother was killed. He was with the
Seaforth Highlanders. He says it is
terrible the number of men who are
being wounded. Some have left for
the front and were back in England
wounded within 15 hours. He had
also seen some of the Redcliff boys
who were with the C. M. B. They are
all fine and anxious to get to the front.

WANTED—Shack for granary;
cheap. Box 67, Redcliff.

When you go to vote next Wednes-
day don't get mixed in the shooting
of the ballot. A vote marked "yes"
means a vote for the Liquor Act
and for prohibition.

The Moose defeated the Nomads,
both of Medicine Hat, in a scholastic
game in the Hat-Redcliff football
league, last evening. The Hat Colliers
play the Nomads here on July 20th,
in the cup series.

Instead of taking the subject which
was announced last Sunday, Rev. H. C.
B. Gibson will speak on the temper-
ance question at the service next
Sunday evening.

E. A. Miller, of Los Angeles, Cal-
ifornia, who is interested in Redcliff
property, arrived in town this week
on business.

George Lydiate, manager of the
Glass plant here, who has been in
Montreal for the past few months,
returned to Redcliff yesterday.

Elder David Hollinger, of Green-
wich, Ohio, is spending a few days in
town this week visiting his brother-in-
law, Mr. Hollinger has considerable
property in and around Redcliff
and is here on his trip combining
business with pleasure.

CARD OF THANKS.

To the Redcliff Review:
Will you kindly allow me through
your paper to thank all our numerous
friends in Redcliff for their very kind
expressions of sympathy and many
acts of kindness tendered to us during
our sad bereavement in the loss of our
little one last Monday.
In hours of trial it is a very comfort-
ing to know one has so many true
friends to help and sympathize. My
wife and the Misses Fair, join me in
tendering our warmest thanks to all.
Yours truly,
J. E. ASKWITH.

NOTICE

In the matter of the Court of Con-
firmation of the Tax Enforcement Re-
turn of the Town of Redcliff.

TAKE NOTICE that His Honor
Judge Carpenter, Judge of the Dis-
trict Court of the District of Medi-
cine Hat, has appointed Tuesday the
27th day of July, A. D. 1915, at the
hour of 10 o'clock in the forenoon, at
the Court House in Medicine Hat, as
the time and place for the holding of
the Court of Confirmation to confirm
the Tax Enforcement Return of the
Town of Redcliff for the year 1914.

**DATED at Redcliff, this 17th day
of May, A. D. 1915.**

P. H. COURNELL,
Secretary-Treasurer of the Town of
Redcliff.

Citizens of Medicine Hat are do-
nating two machine guns to go with
the first when they go to the front.

When sending money to Europe
buy a Dominion Express Foreign
cheque. A. J. Nicholson sells them.

WANTED—To buy two shacks to
move onto homestead; must be in fair
condition. Apply to box 101, Havel,
Alberta.

Yours truly,
J. E. ASKWITH.

PROHIBITION—VOTE YES

To vote for Prohibition vote for "THE LIQUOR ACT"
Put your cross X in the top square before the word YES
as below.

SAMPLE BALLOT

QUESTION: Do you approve of the proposed Act.
"THE LIQUOR ACT"?

X YES
NO

All the Churches, Protestant and Catholic, have endorsed Prohibition. That shows where religious sentiment and Biblical knowledge leads in this matter. Some ministers of religion may be on the other side, but the Churches guided by the Holy Spirit have declared for the suppression of the traffic in intoxicants.

Two FACTS: Prohibition does prohibit. Prohibition fills the pay envelope and increases the bank account.

Two other FACTS: Prohibition helps the merchant and his customer. Prohibition increases efficiency to such an extent that the manufacturers of Russia told the Czar that they would prefer paying directly the loss of revenue caused by Prohibition than go back to the sale of intoxicants. Intoxicating liquors take the Merchant's money, the children's bread, and the drinker's brains and nerve.

A forward-looking town like Redcliff cannot afford to lag behind in this the greatest social and moral movement of our time.
